

Educational Roadshow

We offer schools and colleges a hosted powerpoint presentation complete with pop up display stands, a PA system and finishing off with ice cream tasting.

The presentation includes:

(approx 30 - 45 mins depending on ages, numbers and school requirements)

- The History of Rossi Ice Cream dating back to 1932 to present day
- A “talk through” animated powerpoint of how ice cream is made including the manufacturing process with equipment used, right up to the final stage of the ice cream in the tubs.
- The Range of Flavours we produce and the top 10 selling flavours of ice cream and sorbet - also interaction with pupils and students
- The different types of packaging used for the retail and catering trade
- Question Time, a chance to ask any questions
- Finishing on a Quiz on what has been learnt
(Pupils and students are told from the start about the quiz and at the end of the presentation they must get all answers correct as a group, to get to the ice cream tasting stage, fun whilst learning)

Requirements:

A minimum of 60 pupils or students from year 3 upwards

This can be a large group as we recently presented to over 250 in one school

A screen, projector or interactive whiteboard that is suitable to use with our laptop.

Everything else we provide, including PA system, a pre-visit to check facilities (if reqd) and ice cream for tasting

..... all at no cost to schools and colleges

Interested in an Educational Roadshow ? please contact us for more details and availability of dates.
